

Start children off on the way they should go, and even when they are old they will not turn from it." Proverbs 22:6

ONLINE SAFETY POLICY

Adopted	October 2023
Committee	Full Governors
Review Date	October 2024

We are a Christian school where quality and opportunities make a difference. We value all children as unique 'Children of God' and nurture each other to show **LOVE** in our relationships and a **RESPECT** for all. We foster **HOPE** within our community and encourage children to find **PEACE** by creating times and places for stillness and reflection. We strive for excellence, inspiring dreams both now and in the future. We promote **POSITIVITY**, celebrate **COURAGE**, demonstrate **RESPONSIBILITY** and share **JOY** through...

'Learning, loving, laughing in the light of Jesus'.

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Forsbrook CE Primary School to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Forsbrook Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed by members of the Online Safety Group:

- headteacher/senior leaders
- Designated safeguarding lead (DSL)
- Online Safety Lead (OSL)
- governors

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for development, monitoring and review

This Online Safety Policy was approved by the <i>school governing body</i> on:	October 2023
The implementation of this Online Safety Policy will be monitored by:	Designated safeguarding lead, senior leadership team
Monitoring will take place at regular intervals:	Annually
The <i>governing body</i> will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	Annually
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	October 2024
Should serious online safety incidents take place, the following external persons/agencies should be informed:	LA safeguarding officer, police, NCSC.

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- logs of reported incidents
- Filtering and monitoring logs
- internal monitoring data for network activity
- surveys/questionnaires of:
 - learners
 - parents and carers
 - staff.

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (See appendix 9 for advice on responding to incidents of misuse).
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead.
- The headteacher/senior leaders will work with the responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.

Governors

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy.

This review will be carried out by the members of the Governing body whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Designated Safeguarding Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually. (The review will be conducted by members of the SLT, the DSL, and the IT service provider and involve the responsible governor) - in-line with the DfE Filtering and Monitoring Standards
- reporting to Governors
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the DfE Cyber-Security Standards

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team
- be responsible for receiving reports of online safety incidents and handling them, and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded.
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)

Online Safety Lead (OSL)

The Online Safety Lead will:

- lead the Online Safety Group
- work closely on a day-to-day basis with the Designated/ Deputy Designated Safeguarding Lead (DSL/DDSL)
- receive reports of online safety issues, being aware of the potential for serious child protection concerns and ensure that these are logged to inform future online safety developments
- have a leading role in establishing and reviewing the school online safety policies/documents

- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with school technical staff, pastoral staff and support (as relevant)
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) with regard to the areas defined In Keeping Children Safe in Education:
 - content
 - contact
 - conduct
 - commerce

Curriculum Leads

Curriculum Leads will work with the DSL/DDSL/OSL to develop a planned and coordinated online safety education programme (Project Evolve)

This will be provided through:

- a discrete programme
- PHSE and SRE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use policy (AUP)
- they immediately report any suspected misuse or problem to Kate Cooke (DSL) or Nikki Lockett (DDSL) for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers are on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities

- ensure learners understand and follow the Online Safety Policy and acceptable use policy, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned, learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

IT Provider

The DfE Filtering and Monitoring Standards says:

“Senior leaders should work closely with governors or proprietors, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring. Your IT service provider may be a staff technician or an external service provider.”

“Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL should work closely together with IT service providers to meet the needs of your setting. You may need to ask filtering or monitoring providers for system specific training and support.”

“The IT service provider should have technical responsibility for:

- *maintaining filtering and monitoring systems*
- *providing filtering and monitoring reports*
- *completing actions following concerns or checks to systems”*

“The IT service provider should work with the senior leadership team and DSL to:

- *procure systems*
- *identify risk*
- *carry out reviews*
- *carry out checks”*

As Forsbrook CE Primary School receives a technology service provided by Entrust, it is the responsibility of the school to ensure that Entrust carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that Entrust follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to DSL/DDSL for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person
- monitoring systems are implemented and regularly updated

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use policy and Online Safety Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement

- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school.
- the safe and responsible use of their children's personal devices in the school (where this is allowed)

Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUP before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Online Safety Group

The Online Safety Group has the following members:

- Designated Safeguarding Lead
- Deputy Designated Safeguarding Lead
- Online Safety Lead
- Online Safety Governor
- Support staff members
- Digital Leaders

Members of the Online Safety Group will assist the DSL/DDSL/OSL with:

- the production, review, monitoring of the school Online Safety Policy
- the production, review, monitoring of the school filtering policy and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

Policy

Online Safety Policy

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels
- is published on the school website.

Acceptable use

Forsbrook Primary School has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use policy

The Online Safety Policy and acceptable use policy defines acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction and handbook
- digital signage
- posters/notices around where technology is used

- communication with parents/carers
- built into education sessions
- school website

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	<p>Any illegal activity for example:</p> <ul style="list-style-type: none"> • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering <p>N.B. Schools should refer to guidance about dealing with self-generated images sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges</p>					X
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	<ul style="list-style-type: none"> • Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files 					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	<ul style="list-style-type: none"> Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) Disable/Impair/Disrupt network functionality through the use of computers/devices Using penetration testing equipment (without relevant permission) <p>N.B. Schools will need to decide whether these should be dealt with internally or by the police. Serious or repeat offences should be reported to the police. The National Crime Agency has a remit to prevent learners becoming involved in cyber-crime and harness their activity in positive ways– further information here</p>					
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X	X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X	
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for non-educational purposes:	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awa
Online gaming	X				X			
Online shopping/commerce	X				X			
File sharing	X				X			
Social media			X		X			
Messaging/chat			X		X			
Entertainment streaming e.g. Netflix, Disney+			X		X			
Use of video broadcasting, e.g. YouTube, Twitch, TikTok			X		X			
Mobile phones may be brought to school			X					X
Use of mobile phones for learning at school	X				X			
Use of mobile phones in social time at school			X		X			
Taking photos on mobile phones/cameras	X				X			
Use of other personal devices, e.g. tablets, gaming devices			X		X			

Use of personal e-mail in school, or on school network/wi-fi	X				X			
Use of school e-mail for personal e-mails	X				X			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. Personal e-mail addresses, text messaging or social media must not be used for these communications.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a Kate Cooke or Nikki Lockett – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

Reporting and responding

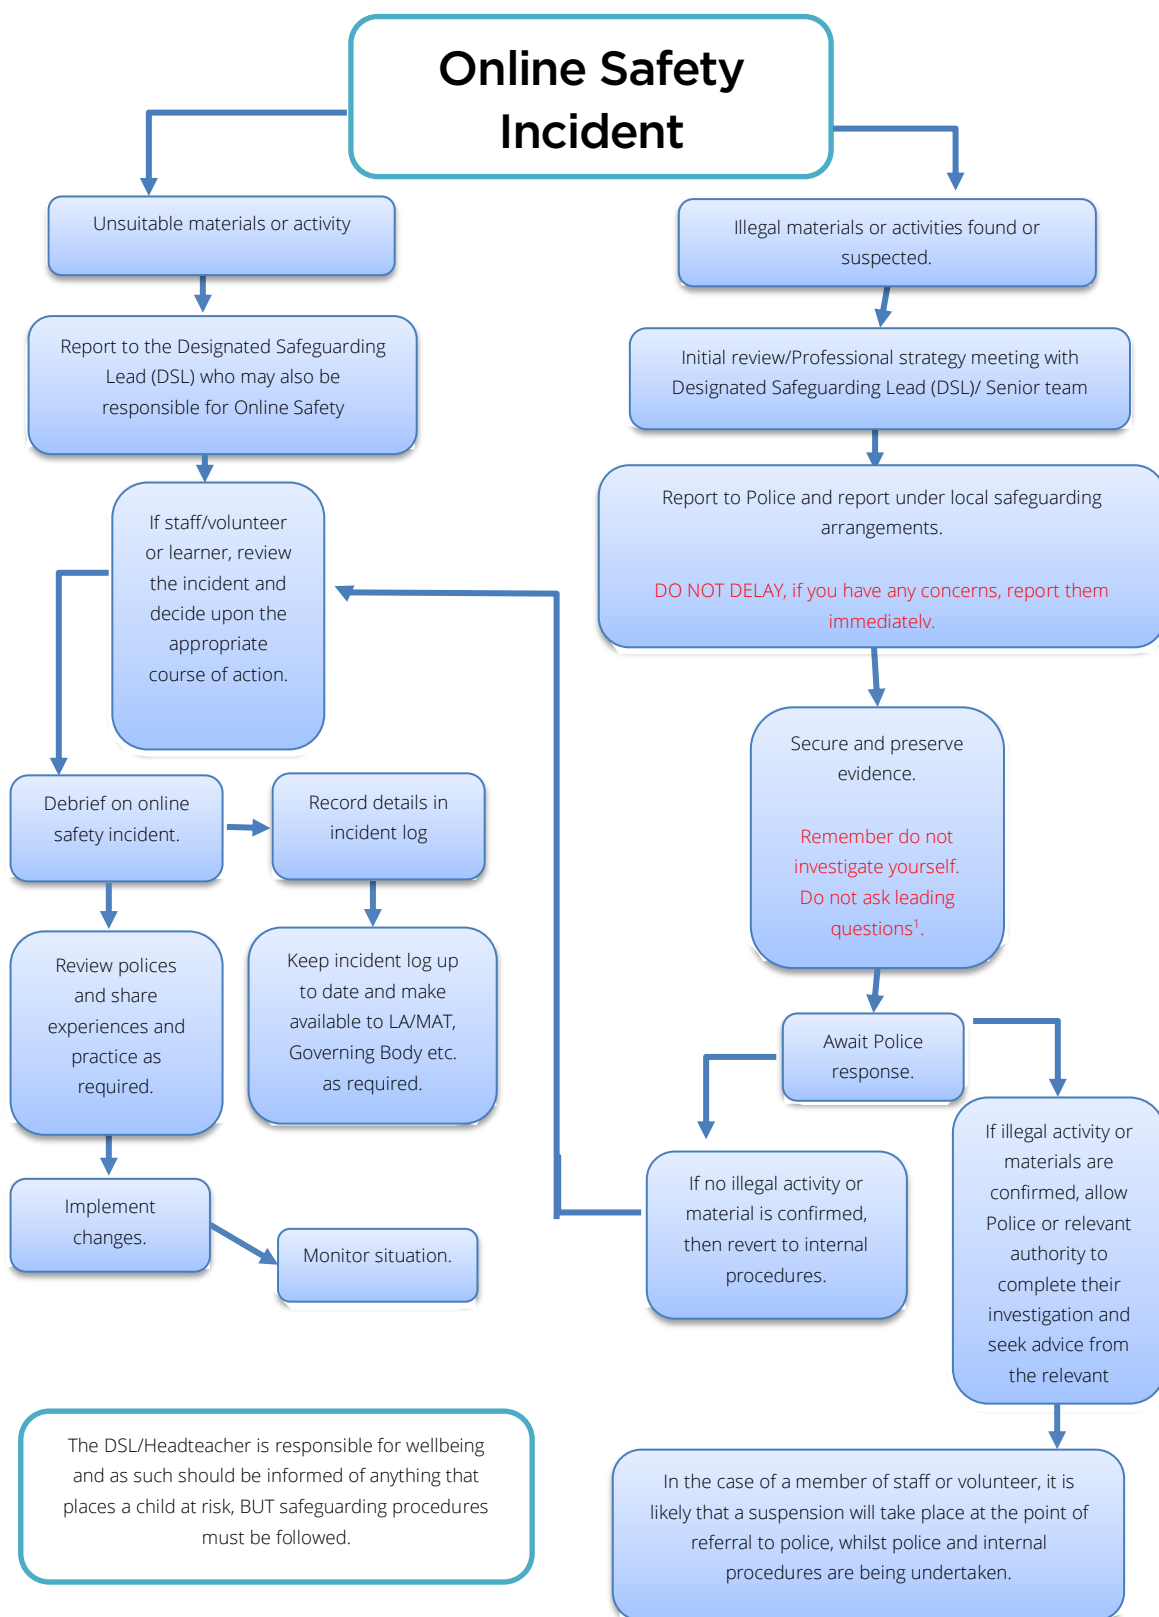

Forsbrook Primary School will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm (see flowchart and user actions chart in the appendix), the incident must be escalated through the agreed school safeguarding procedures. this may include
 - Non-consensual images
 - Self-generated images
 - Terrorism/extremism
 - Hate crime/ Abuse
 - Fraud and extortion

- Harassment/stalking
 - Child Sexual Abuse Material (CSAM)
 - Child Sexual Exploitation Grooming
 - Extreme Pornography
 - Sale of illegal materials/substances
 - Cyber or hacking offences under the Computer Misuse Act
 - Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority
- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - internal response or discipline procedures
 - involvement by local authority
 - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents are logged and logs contain sufficient detail regarding the incident via Securus and is fully monitored by Entrust
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; Professionals Online Safety Helpline; Reporting Harmful Content; CEOP.

- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
 - the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
 - staff, through regular briefings
 - learners, through assemblies/lessons
 - parents/carers, through newsletters, school social media, website
 - governors, through regular safeguarding updates
 - local authority/external agencies, as relevant

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Deputy Head/ Computing Lead	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/ network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).	x	x	x	x	x	x	x	x	x
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords	x	x	x			x			x
Corrupting or destroying the data of other users.	x	x	x		x	x	x	x	x
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	x	x	x			x	x	x	x
Unauthorised downloading or uploading of files or use of file sharing.	x	x	x		x	x			x
Using proxy sites or other means to subvert the school's filtering system.	x	x	x		x	x	x		x

Accidentally accessing offensive or pornographic material and failing to report the incident.	X	X	X		X	X	X		X
Deliberately accessing or trying to access offensive or pornographic material.	X	X	X	X	X	X	X	X	X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	X	X	X			X	X		X
Unauthorised use of digital devices (including taking images)	X	X	X			X		X	X
Unauthorised use of online services	X	X	X			X		X	X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X	X		X	X			X
Continued infringements of the above, following previous warnings or sanctions.	X	X	X	X	X	X	X	X	X

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher	Refer to local authority/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		X	X	X		In accordance with HR policies and procedures		
Deliberate actions to breach data protection or network security rules.		X	X		X			
Deliberately accessing or trying to access offensive or pornographic material		X	X		X			
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X	X		X	X		
Using proxy sites or other means to subvert the school's filtering system.		X	X		X	X		
Unauthorised downloading or uploading of files or file sharing		X	X		X	X		
Breaching copyright or licensing regulations.		X	X			X		
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.	X	X				X		
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X				X		

Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers	X	X				X		
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	X	X				X		
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	X	X				X		
Actions which could compromise the staff member's professional standing	X	X				X		
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X				X		
Failing to report incidents whether caused by deliberate or accidental actions	X	X				X		
Continued infringements of the above, following previous warnings or sanctions.	X	X	X					X

Online Safety Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience. Therefore, a term of the Computing curriculum is dedicated to online safety education using 'Project Evolve', along with objectives being taught across the year through our PSHE curriculum, 'HeartSmart'.

However, online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

A planned online safety curriculum for all year groups matched against a nationally agreed framework e.g. Education for a Connected Work Framework by UKCIS/DCMS and the SWGfL Project Evolve and regularly taught in a variety of contexts.

- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment using the Project Evolve baseline tool
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc
- it incorporates/makes use of relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#)
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- Where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- The online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

Forsbrook Primary School acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- use of Microsoft 'Forms' to canvass learner feedback and opinion.
- the Online Safety Group has learner representation
- implementation of digital leaders

- digital leaders contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Designated Safeguarding Lead (or other nominated person) will receive regular updates through attendance at external training events, (Staffordshire Safeguard Board SSCB/ ESAS) and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Designated Safeguarding Lead will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority or other relevant organisation
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor. This will include:

- Cyber-security training (at least at a basic level)
- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and review.

Families

Forsbrook Primary School will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes through our social media channels
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website, learning platform,
- high profile events / campaigns e.g. Safer Internet Day
- reference to the relevant web sites/publications, e.g. SWGfL; www.saferinternet.org.uk/; www.childnet.com/parents-and-carers (see Appendix for further links/resources).

Technology

Forsbrook Primary School is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering & Monitoring

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DDSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

The filtering and monitoring provision is reviewed by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced e.g. using SWGfL Test Filtering

Filtering

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the [DfE Filtering standards for schools and colleges](#) and the guidance provided in the UK Safer Internet Centre [Appropriate filtering](#).
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes (see Appendix for more details).
- filtering logs are regularly reviewed by the DDSL and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- younger learners will use child friendly/age-appropriate search engines e.g. [SWGfL Swiggle](#)

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content](#) site.

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the DSL and DDSL
- all users are aware that the network (and devices) are monitored
- there are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through the use of the appropriate blend of strategies informed by the school's risk assessment. These may include:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders

- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.
- use of a third-party assisted monitoring service to review monitoring logs and report issues to school monitoring lead(s)

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the IT service provider and will be reviewed, at least annually, by the SLT/Online Safety Group
- password policy and procedures are implemented
- the security of their username and password and must not allow other users to access the systems using their log on details.
- all users have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details.
- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone
- the administrator passwords for school systems are kept in a secure place, e.g. school safe
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud (Using RedStor – a third party storage back-up system),
- ICT Technician employed through Entrust is responsible for ensuring that all software purchased by and used by the school is adequately licensed and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them

- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.

Mobile technologies

Forsbrook Primary School recognises the importance of mobile devices in moving our education provision forward. Where 'mobile technology devices' are discussed, these may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

All users should understand that the primary purpose of the use of mobile/personal devices in a school context is educational and should sign an AUP annually. The use of mobile technologies should be consistent with and inter-related to other relevant school policies including but not limited to those for safeguarding, behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies is an integral part of the Forsbrook's online safety education programme.

The school's AUP for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device ¹	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Yes	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only	/	/	/	/	/	Guest WiFi

¹ Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

No network access	/	/	/	Yes	Yes	Yes
-------------------	---	---	---	-----	-----	-----

School owned/provided devices:

- all school devices are managed through the use of Mobile Device Management software
- there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed
- personal use is strictly forbidden
- the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.
- liability for damage aligns with current school policy for the replacement of equipment.
- education is in place to support responsible use and is outlined in the staff and child AUPs

Personal devices:

- where devices are used to support learning, staff have been trained in their planning, use and implementation, ensuring that all learners can access a required resource.
- where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storage should be made available.
- use of personal devices for school business is defined in the acceptable use policy and staff handbook. Personal devices should not access the school network to ensure cyber security. Should a personal device need to access the school network, said device MUST have anti-virus/ malware software installed
- there are no expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.
- there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements
- education about the safe and responsible use of mobile devices is included in the school online safety education programmes

Digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees.

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with [guidance from the Information Commissioner's Office](#), parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- staff are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- care should be taken when sharing digital/video images that learners are appropriately dressed
- learners must not take, use, share, publish or distribute images of others without their permission (as stated on children's AUP)
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media. Permission is not required for images taken solely for internal purposes
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy
- learners' work can only be published with the permission of the learner and parents/carers.

Online Publishing

Forsbrook Primary School communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Social media
- Online newsletters

The school website is managed/hosted by Ionos. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

The website includes contact information for parents and the wider community to register issues and concerns relating to online safety.

Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation.

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected
- device will be password protected
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices
- use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data

- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Secure access of the school

We recognise that personal data may be accessed by users out of school or transferred to the local authority or other agencies. In these circumstances:

- Users may not remove or copy sensitive or restricted or protected personal data from the school or authorised premises without permission and unless the media is encrypted and password protected and is transported securely for storage in a secure location
- Users must take particular care that computers or removable devices which contain personal data must not be accessed by other users (e.g. family members) when outside of the school
- When restricted or protected personal data is required by an authorised user from outside the school premises (for example, by a member of staff to work from their home), they should have secure remote access to the management information system or learning platform
- If secure remote access is not possible, users must only remove or copy personal or sensitive data from the organisation or authorised premises if the storage media, portable or mobile device is encrypted and is transported securely for storage in a secure location.
- Users must protect all portable and mobile devices, including media, used to store and transmit personal information using approved encryption software.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy

Glossary of Terms

A1 Learner Acceptable Use Policy – for KS2

Introduction

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open-up new opportunities for everyone. They can stimulate discussion, encourage creativity and stimulate awareness of context to promote effective learning. Learners should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

When I use devices I must behave responsibly to help keep me and other users safe online and to look after the devices.

For my own personal safety:

- I understand that what I do online will be supervised and monitored and that I may not be allowed to use devices in school unless I follow these rules and use them responsibly.
- I will only visit internet sites that adults have told me are safe to visit.
- I will keep my username and password safe and secure and not share it with anyone else
- I will be aware of “stranger danger” when I am online.
- I will not share personal information about myself or others when online.
- If I arrange to meet people off-line that I have communicated with online, I will tell a trusted adult about the communication, arrange a meeting in a public place and take a trusted adult with me.
- I will immediately tell an adult if I see anything that makes me feel uncomfortable when I see it online.

I will look after the devices I use, so that the school and everyone there can be safe:

- I will handle all the devices carefully and only use them if I have permission.
- I will not alter the settings on any devices or try to install any software or programmes.
- I will tell an adult if a device is damaged or if anything else goes wrong.
- I will only use the devices to do things that I am allowed to do.

I will think about how my behaviour online might affect other people:

- When online, I will act as I expect others to act toward me.
- I will not copy anyone else's work or files without their permission.

- I will be polite and responsible when I communicate with others and I appreciate that others may have different opinions to me.
- I will not take or share images of anyone without their permission.

I know that there are other rules that I need to follow:

- I will only use my own personal devices (mobile phones/USB devices etc.) in the school if I have permission. If I am allowed, I still have to follow all the other school rules if I use them.
- I will only use social media sites (inclusive of Youtube, Minecraft, Scratch, Showbie chat features) with permission and at the times that are allowed.
- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I should have permission if I use the original work of others in my own work.

I understand that I am responsible for my actions, both in and out of school:

- I know that I am expected to follow these rules in school and that I should behave in the same way when out of school as well.
- I understand that if I do not follow these rules, I may be subject to disciplinary action. This could include action as per the school behaviour policy (*for example; loss of access to the school network/internet, parents/carers contacted and in the event of illegal activities involvement of the police.*)

Learner Acceptable Use Agreement Form

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Name of Learner: _____

Group/Class: _____

A2 Learner Acceptable Use Policy (Foundation/KS1)

Acceptable Use Policy KS1

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers/tablets
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of computers/tablets and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that if I break the rules I might not be allowed to use a computer/tablet

A3 Staff (and Volunteer) Acceptable Use Policy Agreement

Staff and Volunteers AUP

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school

- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will log out of my User area before leaving my computer or other digital device.

I will be professional in my communications and actions when using school systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies (see Social Media policy).
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school's ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal

data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.

- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the online systems in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school's digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors/Trustees and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

A4 Acceptable Use Policy for Community Users

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.

- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

As the school is collecting personal data by issuing this form, it should inform community users about:

Administration will have access to your information	Information will be deleted from the server annually
Information is stored on the school server	Information is stored Indefinitely. Requests can be made to remove data.

Name:Signed:Date:

A5 School Policy– Online Safety Group Terms of Reference

1. Purpose

To provide a consultative group that has wide representation from the [school] community, with responsibility for issues regarding online safety and the monitoring the online safety policy including the impact of initiatives.

2. Membership

2.1. The online safety group will seek to include representation from all stakeholders.

The composition of the group should include:

- SLT member/s
- Designated Safeguarding Lead (DSL)
- Online Safety Lead (OSL)
- Teaching staff member
- Support staff member
- Governor
- IT Support Provider
- *Learner representation* – for advice and feedback

- 2.2. Other people may be invited to attend the meetings at the request of the Chairperson on behalf of the committee to provide advice and assistance where necessary.
- 2.3. Committee members must declare a conflict of interest if any incidents being discussed directly involve themselves or members of their families.
- 2.4. Committee members must be aware that many issues discussed by this group could be of a sensitive or confidential nature
- 2.5. When individual members feel uncomfortable about what is being discussed they should be allowed to leave the meeting with steps being made by the other members to allow for these sensitivities

3. Chairperson

The Committee should select a suitable Chairperson from within the group. Their responsibilities include:

- Scheduling meetings and notifying members;
- Inviting other people to attend meetings when required
- Guiding the meeting according to the agenda and time available;
- Ensuring all discussion items end with a decision, action or definite outcome;

- Making sure that notes are taken at the meetings and that these with any action points are distributed as necessary

4. Duration of Meetings

Meetings shall be held annually for a period of 2 hour(s).

5. Functions

These are to assist the DSL/OSL (or other relevant person) with the following :

- To keep up to date with new developments in the area of online safety
- To (at least) annually review and develop the online safety policy in line with new technologies and incidents
- To monitor the delivery and impact of the online safety policy
- To monitor the log of reported online safety incidents (anonymous) to inform future areas of teaching/learning/training.
- To co-ordinate consultation with the whole school community to ensure stakeholders are up to date with information, training and/or developments in the area of online safety. This could be carried out through [add/delete as relevant]:
- Staff meetings
- Learner forums (for advice and feedback)
- Governors meetings
- Surveys/questionnaires for learners, parents/carers and staff
- Parents evenings
- Website/newsletters
- Online safety events
- Internet Safety Day (annually held on the second Tuesday in February)
- Other methods
- To ensure that monitoring is carried out of Internet sites used across the schools.
- To monitor filtering/change control logs (e.g. requests for blocking/unblocking sites).
- To monitor the safe use of data across the schools
- To monitor incidents involving cyberbullying for staff and learners

6. Amendments

The terms of reference shall be reviewed annually from the date of approval. They may be altered to meet the current needs of all committee members, by agreement of the majority. The above Terms of Reference for Forsbrook Primary School have been agreed.

A6 School Online Safety Policy- Harmful Sexual Behaviour

Background context and legislation.

Introduction

The South West Grid for Learning Trust (SWGfL) is a charity that has been at the forefront of supporting schools with online safety and security for 20 years and was recognised as a world leader in online safety innovation in a DCMS report.

The Harmful Sexual Behaviour Support Service (HSBSS) for England was created at the start of 2022. HSBSS is a unique project, funded by the UK Home Office in response to the Everyone's Invited revelations and the subsequent reviews by Ofsted. Drawing upon our existing expertise in supporting victims of online harm we fast-tracked the creation of the service within 14 working days of the request. We work in partnership with the Marie Collins Foundation. We have a current and up-to-date understanding about how online sexual harassment manifests in schools. Overwhelmingly we speak with safeguarding leads about often complex cases involving children and young people in their school.

Legislative background and context

Key Documents:

- Department for Education: Keeping Children Safe in Education
- Department for Education: Sexual violence and sexual harassment between children in schools and colleges
- Everyone's Invited
- Department for Education: Sharing Nudes and Semi-Nudes: Advice for Education Settings working with Young People
- Ofsted: Review of sexual abuse in schools and colleges
- Department for Education: Teaching Online Safety in Schools
- Department for Education: Working together to safeguard children
- Report Harmful Content: Laws about harmful behaviours

In March 2021 it was discovered that the Everyone's Invited website was holding "testimonials" about incidents that occurred in over 3000 schools in the UK. This highlighted a wide range of abuse

scenarios involving children abusing other children. As a result, the Education Secretary requested a rapid review into sexual abuse in schools and colleges in England. Ofsted published their findings in June 2021. This led to a series of recommendations for schools, multi-agency partners and government.

Ofsted's School Inspection Handbook states that:

"leaders ensure that their school's culture addresses harmful sexual behaviour. Inspectors will expect schools to assume that sexual harassment, online sexual abuse and sexual violence are happening in the community, and potentially in the school, even when there are no specific reports, and put in place a whole-school approach to address them."

"Schools should have appropriate and well-communicated school-wide policies in place that make it clear that sexual harassment, online sexual abuse and sexual violence (including sexualised language) are unacceptable."

Ofsted will:

- Request that college leaders supply records and analysis of sexual harassment and sexual violence, including online, to inspectors. The Independent Schools Inspectorate will also specifically request schools to provide the same records upon notification of inspection, in addition to its current practice.
- Speak with groups of pupils, where this helps them to better understand a school or college's approach to tackling sexual harassment and violence, including online.
- Feed this part of the inspection into a judgement of safeguarding and leadership and management. If a school's processes are not adequate, Ofsted is likely to judge both their safeguarding practices and leadership and management as inadequate.

Your behaviour and safeguarding/child protection policies will likely be checked to see whether they set out clear and effective procedures to prevent and respond to incidents. It will be expected that you have a zero-tolerance approach to all harmful sexual behaviour.

This document has been created as a template for school leaders to assist them in creating their own Harmful Sexual Behaviour Policy.

Within this template, sections which include information or guidance are shown in BLUE. It is anticipated that schools/academies would remove these sections from their completed policy document, though this will be a decision for the group that produces the policy.

Where sections in the template are written in ITALICS it is anticipated that schools would wish to consider whether or not to include that section or statement in their completed policy.

Where sections are highlighted in **BOLD**, it is suggested that these should be an essential part of a school/academy policy.

Online:

Schools and colleges should recognise that sexual violence and sexual harassment occurring online (either in isolation or in connection with face-to-face incidents) can introduce a number of complex factors. Amongst other things, this can include widespread abuse or harm across social media platforms that leads to repeat victimisation. Online concerns can be especially complicated and support is available from a range of organisations – see the links section. For this reason, schools should ensure they have a robust, up-to-date and comprehensive online safety policy which links to other relevant safeguarding policies.

A8 Policy for Harmful Sexual Behaviour

Statement of intent

Our school has a zero-tolerance approach to any harmful sexual behaviour involving children and acknowledge that it could be occurring at Forsbrook Primary School and in our school community. The school is proactive in its approach to assessing prevalence, responding to incidents and challenging and changing behaviour. This policy applies to all governors, staff and learners.

Schools and colleges have a statutory duty to safeguarding the children in their setting. We work together to foster an environment that creates healthy relationships for children and young people.

Our whole-school approach encourages healthy relationships and works to prevent harmful sexual behaviour. We provide high quality education within the curriculum to reduce the likelihood of the situations occurring.

We recognise that HSB is harmful to both the child/children affected by the behaviours and the child/children who displayed the behaviour and provide ongoing support for all involved.

Our approach is to treat everything as safeguarding incident in the first instance - we distinguish between behaviours that are exploratory and part of healthy age and ability appropriate development and those that may be harmful.

As a school we provide regular opportunities for school staff to understand what harmful sexual behaviours might look like and what they should do in the event of a report.

Related policies

This policy should be read in conjunction with:

- Child protection and safeguarding policy
- Whistleblowing
- Behaviour policy
- Anti-bullying policy
- Online safety

- Acceptable Use Agreements
- Curriculum Policies

Definitions

As stated in the Sexual Offences Act 2003, the term Harmful Sexual Behaviour (HSB) covers a wide range of behaviours, often these may be considered problematic, abusive, or violent and may also be developmentally inappropriate. HSB can occur online, offline or in a blend of both environments. The term HSB is widely acknowledged in child protection and should be treated in this context.

Whilst peer on peer harassment has become a widely recognised term, this is already moving towards child on child in recognition that age and development is a factor in making decisions about behaviour. A significant age difference between the children involved in an incident may lead to a decision about the behaviour being harmful or not. For example, this could be an older child's behaviour towards a pre-pubescent child, or a younger child's behaviour towards an older child with learning difficulties. It is important that Designated Safeguarding Leads (DSL) know what is and is not HSB. DSLs should be involved in planning the curriculum for HSB, planning preventative actions and ensuring a whole-schools culture that condones HSB, alongside all other forms of abuse and harassment. This template policy provides a basis for an effective approach to managing sexual violence and harassment.

What is sexual violence?

The following are sexual offences under the Sexual Offences Act 2003:

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (NOTE- Schools and colleges should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent, or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (NOTE – this could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

What is sexual harassment?

Keeping Children Safe in Education Guidance 2022 and the Sexual Violence and sexual harassment between children in schools and colleges state:

When referring to sexual harassment we mean ‘unwanted conduct of a sexual nature’ that can occur online and offline and both inside and outside of school/college. When we reference sexual harassment, we do so in the context of child-on-child sexual harassment. Sexual harassment is likely to: violate a child’s dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual “jokes” or taunting
- physical behaviour, such as: deliberately brushing against someone, interfering with someone’s clothes (schools and colleges should be considering when any of this crosses a line into sexual violence – it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- Online sexual harassment may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
- consensual and non-consensual sharing of nude and semi-nude images and/or videos.

Taking and sharing nude photographs of U18s is a criminal offence.

- sharing of unwanted explicit content
- up skirting (this is a criminal offence)
- sexualised online bullying.
- unwanted sexual comments and messages, including, on social media.
- sexual exploitation; coercion and threats.

It is important that schools and colleges consider sexual harassment in broad terms. Sexual harassment (as set out above) creates a culture that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Responsibilities

Leaders and DSLs

Our leaders and DSLs have ultimate responsibility in dealing with all incidents of harmful sexual behaviour, including online. It is the expectation that all incidents of harmful sexual behaviour/sexual violence and harassment are reported in line with school safeguarding and child protection procedures.

We ensure that our designated safeguarding lead/s (DSL) and their deputies are confident in school safeguarding processes and when it is necessary to escalate. Our DSLs know what local and national specialist support is available to support all children involved in harmful sexual behaviour and are confident as to how to access this support when required.

Designated safeguarding lead/s and their deputies have an in-depth working knowledge of key documentation, particularly KCSIE 2022 and Sexual Violence and Sexual Harassment Between Children in Schools and Colleges (DfE 2021). We ensure that they receive appropriate specialist training, commensurate with their role and that ongoing training is provided for all school staff.

It is the role of school leaders and designated safeguarding leads to ensure that all staff and Governors receive training specific to harmful sexual behaviour, and that it is included as part of induction.

Staff

It is the responsibility of all staff to have read and understood this policy and associated policies. All staff must report any incidents or suspected incidents of harmful sexual behaviour to DSLs in line with school policy and ensure they are informed of the outcome. All staff will challenge any harmful sexual language or inappropriate behaviour. Staff have a duty to ensure that the school environment is one which is safe and which supports learners to understand safe and healthy relationships and appropriate behaviour through delivery of our curriculum.

Governors

We ensure that our trust board/governing body have a good understanding of what harmful sexual behaviour is, when it can pose a risk to children and how to keep children safe. Our trustees/governors receive regular training and updates, both in terms of what sexualised behaviour is, but also how to effectively support establishments and their stakeholders whilst holding provision to account.

As part of the headteacher's report, our trust board/governing body has the opportunity to monitor and evaluate the approach to harmful sexual behaviour to ensure it is adequate and effective. This includes evaluation of the curriculum, pupil voice activity and evaluation of parent/carer engagement. Trustees/Governors ensure that risks relating to these issues are identified, that a number of reporting routes are available, and that risks are effectively mitigated.

Learners

All learners have the right to learn in a safe, healthy and respectful school environment. Our learners benefit from a broad and balanced curriculum and are taught about healthy relationships and know how and when to report and that a range of different reporting routes is available to them. Our learners are encouraged to report any harmful sexual behaviour, even if they are not directly involved. All learners will be believed if they make a disclosure and will be treated sensitively - whilst we cannot guarantee confidentiality, their thoughts and wishes will be taken into account when supporting them.

Parents/carers

We work hard to engage parents and carers by:

- creating an open door policy
- sharing newsletters
- sharing information online e.g., website, social media
- providing curriculum information

Our parents and carers are made aware of how and when to report any concerns to the school, that all incidents will be handled with care and sensitivity, and that it may sometimes be necessary to involve other agencies.

Vulnerable groups

We recognise that, nationally, vulnerable learners are three times more likely to be at risk from Harmful Sexual Behaviour. These include:

- A child with additional needs and disabilities.
- A child living with domestic abuse.
- A child who is at risk of/suffering significant harm.
- A child who is at risk of/or has been exploited or at risk of exploited (CRE, CSE),
- A care experienced child.
- A child who goes missing or is missing education.

- Children who identify as, or are perceived as, LGBTQI+ and/or any of the other protected characteristics.

Children displaying HSB have often experienced their own abuse and trauma. We ensure that any vulnerable learner is offered appropriate support, both within and outside school, sometimes via specialist agencies.

Reporting

Our systems are well promoted, easily understood and easily accessible for children and young people to confidently report abuse, knowing their concerns will be treated seriously. All reports will be dealt with swiftly and sensitively and outcomes shared where appropriate. We also respond to anonymous reports, or reports made by third parties. This can be done via:

- online reporting tool,
- links to national or local organisations
- list any other systems here

Responding to an incident or disclosure

In this policy we recognise the importance of distinguishing between healthy, problematic and sexually harmful behaviour (HSB)

Our response is always based on sound safeguarding principles and follows school safeguarding processes. It is calm, considered and appropriate and puts the learner at the centre of all decisions made.

The school will always adopt a multi-agency approach and seek external support and guidance, in line with school policy, if deemed necessary. This may include:

List relevant agencies e.g., MASH, Early Help, CAMHS, Police etc

Risk assessment

The school may deem it necessary to complete a harmful sexual behaviour risk assessment as part of the response to any reported incidents. The purpose of the risk assessment is to protect and support **all those involved** by identifying potential risk, both in and out of school (e.g., including public transport, after school clubs etc) and by clearly describing the strategies put in place to mitigate such risk.

The risk assessment will be completed following a meeting with all professionals working with the learner, as well as parents or carers. Where appropriate, the learners involved will also be asked to contribute.

The risk assessment will be shared with all staff who work with the learner, as well as parents and carers. It will be dynamic and will respond to any changes in behaviour and will be regularly evaluated to assess impact.

Education

Our school's educational approach seeks to develop knowledge and understanding of healthy, problematic, and sexually harmful behaviours, and empowers young people to make healthy, informed decisions. Our school's approach is delivered predominantly through PSHE and RSE and additional opportunities are provided through:

- Cross curricular programmes (e.g., using the ProjectEVOLVE resources)
- Computing
- Pastoral time – e.g. Hope, Nurture
- Visits from outside agencies
- Discrete PSHE/RSE curriculum lessons

Our approach is given the time it deserves and is authentic i.e., based on current issues nationally, locally and within our setting. It is shaped and evaluated by learners and other members of the school community to ensure that it is dynamic, evolving and based on need. We do this by:

- Surveys
- Focus groups
- Parental engagement
- Staff consultation
- Staff training

The following resources are used:

- ProjectEVOLVE - <https://projectevolve.co.uk>
- HeartSmart PSHE/RSE curriculum

Training

It is effective safeguarding practice for the designated safeguarding lead (and their deputies) to have a good understanding of HSB. This forms part of our regular safeguarding training and updates. This will aid in planning preventative education, implementing preventative measures, drafting and

implementing an effective child protection policy and incorporating the approach to sexual violence and sexual harassment into the whole school or college approach to safeguarding.

- Whole staff training
- Safeguard Network

Training is made available on an ongoing basis for all staff and students to raise awareness of harassment and sexual misconduct with the purpose of preventing incidents and encouraging reporting where they do occur.

A8 Computer Misuse and Cyber Choices Policy

All key stakeholders, including the school IT service provider, have responsibility for the safeguarding of young people from computer misuse and are aware of the Cyber Choices programme led by the National Crime Agency (NCA) and managed locally by Regional Organised Crime Units (part of the national policing network). The risks to young people of crossing the line into committing cybercrimes is a safeguarding issue. This often happens without the individual even realising, young people need support in making the right #CyberChoices in their use of technology. Young people with an interest in technology, a high IQ, and an appetite to engage in risky behaviours are considered to be at a higher risk of committing a cyber offence, but many first-time offenders are also unaware of what the law governing cyber offences actually is. The average age of first-time cyber offenders in the UK has fallen significantly in recent years. The Cyber Choices programme works with individuals committing, or at risk of committing, cybercrimes which can only be carried out with technology, where devices are both the tool for committing the crime, and the target of the crime.

All staff are made aware of the safeguarding risks of computer misuse.

All staff are familiar with the [NCA Hacking it Legal Leaflet*](#), which explains Cyber Choices and the Computer Misuse Act 1990, and lists recommended resources for teachers to use.

Staff are aware of the role of their local Regional Organised Crime Unit as their point of contact for Cyber Choices referrals.

Learners agree to the Acceptable Use Policy (AUP) which outlines acceptable online behaviours and explains that some online activity is illegal. Acceptable computer use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the [NCA Cyber Choices](#) site.

Any breach of the AUP or activity by a learner that may constitute a cybercrime, in school or at home, will be referred to the Designated Safeguarding Lead for consideration as a safeguarding risk.

Where the DSL believes that the learner may be at risk of committing cybercrimes, or to already be committing cybercrimes, a referral to the local [Cyber Choices](#) programme will be made (contact details for all Regional Organised Crime Units are available in the "what to do if you're concerned"

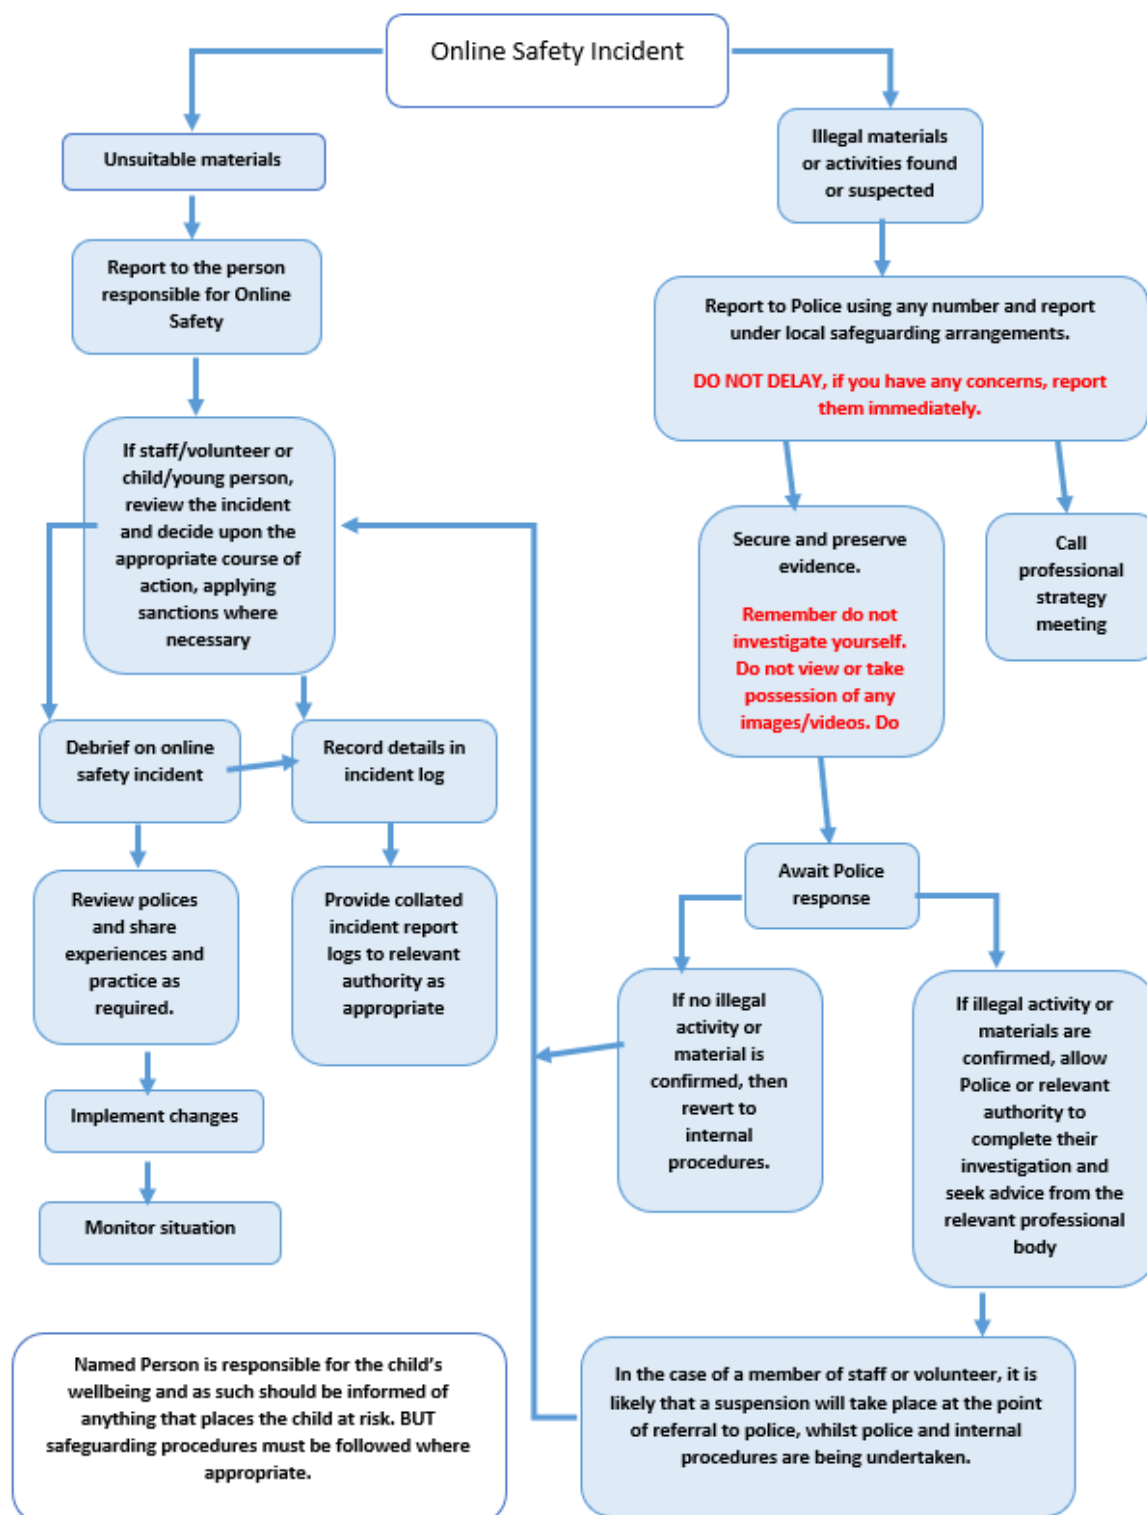

section at the bottom of the [NCA Cyber Choices page](#)). Where the DSL is unsure if a learner meets the referral criteria, advice should be sought from the local Cyber Choices team.

Parents also have the opportunity report potential cybercrime directly to the local Cyber Choices team but are recommended to make school-based concerns through the DSL.

The IT service provider is aware of the safeguarding requirement to refer concerns about computer misuse to the Designated Safeguarding Lead and has a clear process to follow in order to do so.

Forsbrook would like to acknowledge the support of South East Regional Organised Crime Unit (SEROUCU) for the basis of this policy.

C1 Mobile Technologies Policy (inc. BYOD/BYOT)

Mobile technology devices may be a school owned/provided or privately owned smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud based services such as email and data storage.

The absolute key to considering the use of mobile technologies is that the learners, staff and wider school community understand that the primary purpose of having their personal device at school is educational and that this is irrespective of whether the device is school owned/provided or personally owned. The mobile technologies policy should sit alongside a range of policies including but not limited to the safeguarding policy, anti-bullying policy, acceptable use policy, policies around theft or malicious damage and the behaviour policy. Teaching about the safe and appropriate use of mobile technologies should be included in the online safety education programme.

Potential Benefits of Mobile Technologies

Research has highlighted the widespread uptake of mobile technologies amongst adults and children of all ages. Web-based tools and resources have changed the landscape of learning. Learners now have at their fingertips unlimited access to digital content, resources, experts, databases and communities of interest. By effectively maximizing the use of such resources, schools not only have the opportunity to deepen learning, but they can also develop digital literacy, fluency and citizenship in learners that will prepare them for the high tech world in which they will live, learn and work.

Considerations

There are a number of issues and risks to consider when implementing mobile technologies, these include; security risks in allowing connections to your school network, filtering of personal devices, breakages and insurance, access to devices for all learners, avoiding potential classroom distraction, network connection speeds, types of devices, charging facilities, total cost of ownership

Schools may consider implementing the use of mobile technologies as a means of reducing expenditure on school provided devices. However, it is important to remember that the increased network management costs and overheads involved in implementing this properly are likely to counterbalance or outweigh any savings.

The use of mobile technologies brings both real benefits and challenges for the whole school community – including teachers - and the only effective way for a school to implement these successfully is to involve the whole school community from the outset. Before the school embarks on this path, the risks and benefits must be clearly identified and shared with all stakeholders.

- The school acceptable use policies for staff, learners and parents/carers will give consideration to the use of mobile technologies
- The school allows:

	School/devices		Personal devices			
	School owned and allocated to a single user	School owned for use by multiple users	Authorised device ²	Learner owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Yes	Yes	Yes
Full network access	Yes	Yes	Yes			
Internet only					Yes	Yes
No network access				Yes		

The school has provided technical solutions for the safe use of mobile technologies in school:

- o All school devices are managed through the use of Mobile Device Management software
- o Appropriate access control is applied to all mobile devices according to the requirements of the user (e.g Internet only access, network access allowed, shared folder network access)
- o The school has addressed broadband performance and capacity to ensure that core educational and administrative activities are not negatively affected by the increase in the number of connected devices

² Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school

- For all mobile technologies on the school network, filtering will be applied to the internet connection and attempts to bypass this are not permitted
- Appropriate exit processes are implemented for devices no longer used at a school location or by an authorised user. These may include; revoking the link between MDM software and the device, removing proxy settings, ensuring no sensitive data is removed from the network, uninstalling school-licensed software etc.
- All mobile devices on the school network are monitored
- The software/apps originally installed by the school must remain on the school owned device in usable condition and be easily accessible at all times. From time to time the school may add software applications for use in a particular lesson. Periodic checks of devices will be made to ensure that users have not removed required apps
- The school will ensure that devices contain the necessary apps for school work. Apps added by the school will remain the property of the school and will not be accessible to learners on authorised devices once they leave the school roll. Any apps bought by the user on their own account will remain theirs.
- Where a school device has been provided to support learning. It is expected that learners will bring devices to the school as required.
- The changing of settings that would stop the device working as it was originally set up and intended to work is not permitted

When personal devices are permitted:

- Personal devices commissioned onto the school network are segregated effectively from school-owned systems
- Personal devices are brought into the school entirely at the risk of the owner and the decision to bring the device in to the school lies with the user (and their parents/carers) as does the liability for any loss or damage resulting from the use of the device in school
- The school accepts no responsibility or liability in respect of lost, stolen or damaged devices while at school or on activities organised or undertaken by the school (the school recommends insurance is purchased to cover that device whilst out of the home)
- The school accepts no responsibility for any malfunction of a device due to changes made to the device while on the school network or whilst resolving any connectivity issues
- The school recommends that the devices are made easily identifiable and have a protective case to help secure them as the devices are moved around the school. Pass-codes or PINs should be set on personal devices to aid security
- The school is not responsible for the day to day maintenance or upkeep of the users personal device such as the charging of any device, the installation of software updates or the resolution of hardware issues

Users are expected to act responsibly, safely and respectfully in line with current acceptable use policies, in addition:

- Devices are not permitted in tests or exams
- there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements
 - Users are responsible for charging their own devices and for protecting and looking after their devices while in the school
 - Confiscation and searching (England) - the school has the right to take, examine and search any device that is suspected of unauthorised use, either technical or inappropriate.
- The expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.
 - Devices are to be used in lessons in accordance with teacher direction
 - Staff owned devices should not be used for personal purposes during teaching sessions, unless in exceptional circumstances
 - Printing from personal devices will not be possible

Legislation

Schools should be aware of the legislative framework under which this online safety policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an online safety issue or situation.

A useful summary of relevant legislation can be found at: [Report Harmful Content: Laws about harmful behaviours](#)

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- “Eavesdrop” on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Schools may wish to view the National Crime Agency website which includes information about [“Cyber crime – preventing young people from getting involved”](#). Each region in England (& Wales) has a Regional Organised Crime Unit (ROCU) Cyber-Prevent team that works with schools to encourage young people to make positive use of their cyber skills. There is a useful [summary of the Act on the NCA site](#).

Data Protection Act 1998

This protects the rights and privacy of individual's data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject's rights.

- Secure.
- Not transferred to other countries without adequate protection.

The Data Protection Act 2018:

Updates the 1998 Act, incorporates the General Data Protection Regulations (GDPR) and aims to:

- Facilitate the secure transfer of information within the European Union.
- Prevent people or organisations from holding and using inaccurate information on individuals. This applies to information regarding both private lives or business.
- Give the public confidence about how businesses can use their personal information.
- Provide data subjects with the legal right to check the information businesses hold about them. They can also request for the data controller to destroy it.
- Give data subjects greater control over how data controllers handle their data.
- Place emphasis on accountability. This requires businesses to have processes in place that demonstrate how they're securely handling data.
- Require firms to keep people's personal data safe and secure. Data controllers must ensure that it is not misused.
- Require the data user or holder to register with the Information Commissioner.

All data subjects have the right to:

- Receive clear information about what you will use their data for.
- Access their own personal information.
- Request for their data to be revised if out of date or erased. These are known as the right to rectification and the right to erasure
- Request information about the reasoning behind any automated decisions, such as if computer software denies them access to a loan.
- Prevent or query about the automated processing of their personal data.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording

is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
- Ascertain whether the communication is business or personal;
- Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form,

and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. YouTube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an “obscene” article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of “higher law”, affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of learners when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data.

(see template policy in these appendices and for DfE guidance -

<http://www.education.gov.uk/schools/learnersupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>)

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent/carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

<https://www.gov.uk/guidance/what-maintained-schools-must-publish-online>

Serious Crime Act 2015

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)

Criminal Justice and Courts Act 2015

Revenge porn – as it is now commonly known – involves the distribution of private and personal explicit images or video footage of an individual without their consent, with the intention of causing them embarrassment and distress. Often revenge porn is used maliciously to shame ex-partners. Revenge porn was made a specific offence in the Criminal Justice and Courts Act 2015. The Act specifies that if you are accused of revenge porn and found guilty of the criminal offence, you could be prosecuted and face a sentence of up to two years in prison.

Glossary of Terms

AUP/AUA	Acceptable Use Policy/Agreement – see templates earlier in this document
CEOP	Child Exploitation and Online Protection Centre (part of National Crime Agency, UK Police, dedicated to protecting children from sexual abuse, providers of the Think U Know programmes.
CPD	Continuous Professional Development
FOSI	Family Online Safety Institute
ICO	Information Commissioners Office
ICT	Information and Communications Technology
INSET	In Service Education and Training
IP address	The label that identifies each computer to other computers using the IP (internet protocol)
ISP	Internet Service Provider
ISPA	Internet Service Providers' Association
IWF	Internet Watch Foundation
LA	Local Authority
LAN	Local Area Network
MAT	Multi Academy Trust
MIS	Management Information System
NEN	National Education Network – works with the Regional Broadband Consortia (e.g. SWGfL) to provide the safe broadband provision to schools across Britain.
Ofcom	Office of Communications (Independent communications sector regulator)
SWGfL	South West Grid for Learning Trust – the Regional Broadband Consortium of SW Local Authorities – is the provider of broadband and other services for schools and other organisations in the SW
TUK	Think U Know – educational online safety programmes for schools, young people and parents.

UKSIC	UK Safer Internet Centre – EU funded centre. Main partners are SWGfL, Childnet and Internet Watch Foundation.
UKCIS	UK Council for Internet Safety
VLE	Virtual Learning Environment (a software system designed to support teaching and learning in an educational setting,
WAP	Wireless Application Protocol
