Reception

Children in Reception follow the Mastering Number Reception programme.

Focus	Autumn	Spring	Summer
Subitising	Subitise structured and unstructured arrangements, including on the Hungarian number frame	Subitise within and beyond 5, increasingly connecting quantities to numerals	Develop conceptual subitising, including using a rekenrek
Counting	Join in with the counting sequence and count accurately, using 1:1 correspondence and cardinality	Link cardinality and ordinality through the 'staircase' pattern; count verbally beyond 20	Count larger sets, actions and sounds, using a wider range of counting strategies
Composition	Explore 'parts' and 'whole' within 5; spot smaller numbers 'hiding' inside larger numbers	Find missing parts within 5; see 6 and 7 as '5 and a bit'; connect two equal groups to doubles	Arrange doubles on a 10-frame; generalise 'one more' and 'one less' within 10; recall number bonds to 5 (including subtraction facts) and some bonds to 10
Comparison	Compare sets of objects by matching, using the language of comparison	Identify equal and unequal groups, comparing numbers up to 10; order numbers	Compare quantities and numbers and develop a sense of magnitude
Shape, space and measure	Use spatial language, including prepositions and words for movement	Identify, describe and sort some 2D and 3D shapes by their attributes	Compare lengths, heights and mass, using prepositional language
Pattern	Notice and visualise; explore finger patterns for numbers	Notice similarities and differences; sort odd and even numbers by their 'shape'	Copy, continue and create patterns

Reception content is summarised from the Mastering Number Reception overview. Learning is revisited and adapted to meet the needs of each child.

Year 1

In the first few weeks of Year 1, maths is taught through continuous provision to support the move from Reception, so units begin at a slower pace. Consolidation weeks are built in after each half term to secure understanding before moving on.
